

Information Technology Solutions and Internet

---

# Welcome

To Pirmam Company For Internet and Technology Solution Since 2011 ■

# About

## About Us

---

Pirmam for information technology solutions and internet was established in 2011. We provide the most eligible internet services and an exquisite IT solution for all kinds of small to medium sized businesses. We are a technology intensive corporation geared to deliver advanced solutions in areas of unified business solutions, system applications, product development, internet/intranet applications and communication, and network management services.

# Our Goal

## Our Goal

Our goal is to provide the best services possible and continuously move forward to meeting our clients' needs. We want to grant the best class telecommunication knowledge based services and solutions with a modern way of achieving customers' satisfaction.

## Internet

---

With Pirmam, you can have a broadband service that accesses a guaranteed downloading and uploading speed. Check out Pirmam's Leased Line and you will see for yourself! As you don't share the bandwidth with anyone else you get control over it: flex your bandwidth in line with seasonal demands and only pay for what you need.

## VOIP

---

To escalate your company's performance, Pirmam can make this easier for you. Schedule an appointment with one of our IT experts so that we can determine what your company needs.

## IT Support

---

Pirmam provides IT support solutions for small and medium sized businesses. Information technology drives innovation and innovation is the path to business success. Innovation in business has the same impact that steam had on the industrial revolution.

## VSAT

---

VSAT systems provide high speed, broadband satellite communications. VSAT is ideal for mining camps, vessels at sea, satellite news gathering, emergency responders, oil & gas camps or any application that requires a broadband Internet connection at a remote location.

# Introduction

---
